Assignment 1 –

You as a scripter have created powershell profiile. But Everytime start it should ask
wheter to load profile YES or NO. If typed "YES" only it sould load the profile

```powershell
$profile
test-path $profile

 $response= read-host " (Y/N) "
 Switch ($Response)
     {
       Y {$PROFILE | Get-Member -Type NoteProperty}
       N {Write-Host " Script Break"}
     }
```

File   Edit   View   Tools   Debug   Add-ons   Help

Get-WelcomeMessage.ps1 | Digi-Sign.ps1*(Recovered) | Untitled1.ps1* ✕

```
PS C:\WINDOWS\system32> $profile
test-path $profile

 $response= read-host " (Y/N) "
 Switch ($Response)
    {
      Y {$PROFILE | Get-Member -Type NoteProperty}
      N {Write-Host " Script Break"}
    }
C:\Users\M1082890\Documents\WindowsPowerShell\Microsoft.PowerShellISE_profile.ps1
True
 (Y/N) : y

   TypeName: System.String

Name                MemberType   Definition
----                ----------   ----------
AllUsersAllHosts    NoteProperty string AllUsersAllHosts=C:\Windows\System32\W...
AllUsersCurrentHost NoteProperty string AllUsersCurrentHost=C:\Windows\System3...
CurrentUserAllHosts NoteProperty string CurrentUserAllHosts=C:\Users\M1082890\...
CurrentUserCurrentHost NoteProperty string CurrentUserCurrentHost=C:\Users\M10828...

PS C:\WINDOWS\system32> |
```

```powershell
1  $profile
2  test-path $profile
3
4
5  $response= read-host " (Y/N) "
6  Switch ($Response)
7     {
8        Y {$PROFILE | Get-Member -Type NoteProperty}
9        N {Write-Host " Script Break"}
10    }
```
